

NEVADA DEPARTMENT OF EDUCATION

DIRECTORY OF LICENSED PERSONNEL

2015-2016

The DIRECTORY OF LICENSED PERSONNEL lists all educators and other educational personnel within the State of Nevada “entitled to draw salaries from the county school district fund.” This includes both school district and charter school personnel, within elementary, middle, secondary, occupational and special education, as well as administration and special services. The Directory contains each licensed educator’s name, license number, and the school and school district to which they are assigned. Information is organized alphabetically by school district, by school name within each school district, and by educator last name within each school. More information on an individual educator may be found by entering that person’s name or license number into the Nevada Department of Education’s online educator search tool at <http://nvteachersearch.doe.nv.gov/>.

The Directory of Licensed Personnel is published annually by the Licensure Division of the Nevada Department of Education in accordance with Nevada Revised Statute (NRS) 391.045.
